

# TRAINING PATH OF CONAE (SPAIN)

- CONAE is a business organization, non-profit aimed at self-employed and small businesses. Among the objectives of the association one of the most important is the promotion of the formation, mainly in the entrepreneurship field. We work with all the groups involved in the labor market who wish to start a small business.

- In recent months we have begun working with women victims of domestic violence to help them start their own business. For this group it is especially difficult to obtain work, since they usually are forced to abandon their professional life and have to rejoin it many years after with a very difficult personal and emotional situation.

- We propose to create a course called "Management and business management for women victims of domestic violence." This course is aimed at promoting entrepreneurship insertion with women victims of gender violence.

This course consists of three sections:

First section: How to create an integration enterprise?

Time: 5 hours

- Social economy: integration companies.
- Legislation to create social enterprises.
- Types of social economy enterprises.
- Third sector non-profit organizations and social enterprises.

## Section Two: Funding for start-ups

Time: 3 hours

- Mutual guarantee societies
- Calls from private foundations for entrepreneurship in the social economy.
- Opportunities in the European Union.

## Third section: Steps to start a business

Time: 10 hours

- The business idea
- Characteristics of the entrepreneur
- Business plan
