1 What is the innovation recognized? (description of the innovation)

Content and format of (already developed) workshops could be integrated in a comprehensive training path, which allows participants to focus on managing challenges in work in prison. One important innovation is to integrate an “open” session, which allows for working on diverse challenging situations described by participants.

2 Why is it innovative for your organisation? (describe what kind of improvement it will offer to your organisation)

We usually offer workshops on defined topics, providing theoretical and methodological inputs. Additionally offering “open sessions” will strengthen and individualise our workshop programme.

3 How do you carry out it?

by integrating open sessions into our workshop and training programme
