What do we need to do in Turkey?

What is a success in The Netherlands?

Diplomas are by Noorderpoort

Obligation to go to school

Possibility to choose the course

Methodology is transferred to the usual vocational education

Motivation and personality of the teachers they are involved

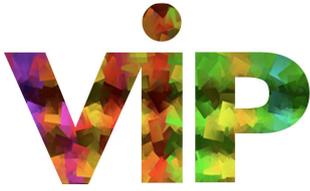

The close cooperation with industry in placements, stages and work...aim is to find a job after having been in the prison.

60% of the inmates will fall back, recidivism is high although there is a lot of space and time invested in the boys. Costs are very high in The Netherlands. What about the results?

In the Netherlands there are only about 1000 young inmates in prison, they are the heavy ones..

The idea of imprisoning very young people is strange to our European colleagues. Is it a good idea or not?

Italian idea of starting an industry within the prison. Teach to inmates to start their own prison. Learn them how to start a small company after they are free.  
What to do with the money that is earned through creating the pallets?

In Italy people have to pay to stay in prison, so when they leave they have a debt , it costs about 40 euro per month. They have to pay for soap etc. Very expensive!

Who decides who is allowed to take part in the coffee making?

1. Good behaviour and a grade of judgement
2. They want to work

Are they helped to find a job, yes and they have experience in working.

The system of creating things in prison is wide spread, esp.in the North of Italy.

Minke will send the copys of the bills and will ask to transfer the amount if you have not paid it yet.
