

Grundtvig Learning Partnership
VIP: Vocational training In Prison

Bilateral meeting 4-5-6 June 2014
Report

4 June:

Following the agenda agreed, Lazzarelle staff arrived to the Neapolis hotel at 18,35 and there was the introduction and a presentation of organisation and context factors of work in Naples and in Wien.

5 June:

meeting started at 13,15. After the social lunch, the project partners got the office and assess the project outputs situation along the project executive plan. The Austrian partners told to Lazzarelle staff the experience of bilateral meeting in Spain and the impressive work for crime prevention by Karibu, an organisation providing training for vulnerable groups, especially, migrants from Africa.

The work group defined stakeholders of the project as all the people working in prison or interested in working in prison, people working in vocational training and in re-entering in labor market, offenders and ex-offenders, and, more in general, the whole society.

The work group decided to upload on the public website the following monitoring and evaluation outputs:

- evaluation plan
- evaluation of different approach to training in prison involved in the project

The remaining monitoring and evaluation outputs will be published on private page for the partners and for the Nas.

Concerning the monitoring of the project process the Austrian partners provided Lazzarelle with monitoring templates to be used in the Naples meeting. Additionally, further evaluation tasks to be addressed in the meeting have been discussed (for example: collection of filled in template)

The work group discussed about the difficulties to use the web 2.0. The assessment they did was related to the use of more traditional communication tools, like, website, e-mail, skype and, with the network, mailing list. In particular we have had a lot of bilateral meetings and many virtual bilateral meetings too, by skype and chat.

6 June:

The work group met at 9 in Naples and got the Pozzuoli Prison at 9.30. After the security check we entered the prison and visited Lazzarelle factory. We met the women who work inside the factory and they explained the process for roasting coffee and their experience as Lazzarelle workers.

After the work group had a workshop with the manager of the prison and her staff; she explained the organisation and the typology of the prison, the number of the population, the typology of population, the typology of training provided to inmates and the approach used for their re-entering in the labor market.

After the lunch, the meeting has continued with a discussion about how to organize the final report and what is the material that the Austrian partners have to send to the partnership before the meeting in Naples, in order to support that work.
